Time4Learning teaches a comprehensive math program. Children are placed in the sequence based on their current skills.

### **7th Grade Math Curriculum Standards - Time4Learning**

In Unit 7, seventh-grade students investigate how they can use sampling to make inferences about larger populations of interest. They begin the unit by understanding that random sampling tends to produce the most representative and "fair" samples and that the size of the sample can make a difference in the accuracy of predictions and the variability of results.

### **7th Grade Math - Unit 7: Statistics | Common Core Lessons**

The Math 7 (3.0) works a little differently than the 2.0. The academic content is the same as always and includes over 100 hours of multimedia instruction! However, each course is now delivered online as a 12-month subscription (per student). This obviously means no more discs (and, importantly, no more need for expensive disc replacements).
