Ethnography (from Greek ἔθνος ethnos "folk, people, nation" and γράφω grapho "I write") is the systematic study of people and cultures. It is designed to explore cultural phenomena where the researcher observes society from the point of view of the subject of the study. An ethnography is a means to represent graphically and in writing the culture of a group.

The ethnography of communication (EOC), originally called the ethnography of speaking, is the analysis of communication within the wider context of the social and cultural practices and beliefs of the members of a particular culture or speech community. It is a method of discourse analysis in linguistics that draws on the anthropological field of ethnography.

Jewish folklore and ethnography emerged as a field of study during the nineteenth century. As early as 1823, Leopold Zunz, a founder of the Verein für Kultur und Wissenschaft des Judentums, outlined what a future "statistics" of the Jews should include: religion, education, occupations, language, government, pastimes, old buildings, tombstones, and "die Tradition," which included ...
