Overview. The Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies lays down five levels of qualification with the title of degree: foundation (not in Scotland), ordinary and honours bachelor's (only separate levels in Scotland), master's and doctoral. These relate to specific outcome-based level descriptors and are tied to the Bologna Process.

In mathematical analysis, a function of bounded variation, also known as BV function, is a real-valued function whose total variation is bounded (finite): the graph of a function having this property is well behaved in a precise sense. For a continuous function of a single variable, being of bounded variation means that the distance along the direction of the y-axis, neglecting the ...
