APA format establishes a number of clear rules for how to list reference works using author information. How you reference different sources varies depending on the number of authors to whom the source is attributed. For example, the way that you reference a single author will differ somewhat from how you reference a source with multiple authors.

But as more and more changes, modifications, tweaks and supposed optimizations were performed under growing time and budget pressure, things got nasty. The maintainers piled up so called technical debt (we software folks call it quick-hacks, quick-and-dirty-fixes, detours or abbreviations). We're quite sure you know what we're talking about - we experienced it over and over again, it seems ...
