Rexon Circular Saw Manual

I brought a rexon 2500a miter saw about 3 years ago and while using it today it just stoped. Checked all the usual things ie power, fuse etc so decided to take a look inside. Switch ok bushes ok so took the motor cover off and hey presto found the problem the secondary coil windings had over heated and 2/3 of the wires had snapped.

Hi Fred, Funnily enough I have one just like it - its a Nutool branded one though. If its the one that is currently up for sale on EBay I'd say go for it without question - the version I have is now that its up and running is so much better than what I could possibly buy for any similar amount of money that Rexon is on for.
