Extra-Social Causes. Durkheim suggested that, a priori, there are two kinds of extra-social causes sufficiently general to have an influence on the suicide rate. First, within the individual psychological constitution there might exist an inclination, normal or pathological, varying from country to country, which directly leads people to commit suicide.

Suicide (1897) - University of Chicago

Animal suicide is a hugely controversial issue in the world of animal research and psychology, because although there are numerous documented instances of animals seemingly intentionally ending their own lives, no one is exactly sure whether these cases can technically be classified as suicide.
